

Japanese Style Massage

- Asifumi 足ふみ The Speciality We are proud to offer this very special style of massage, originating from Buddhist monasteries and unique to Japan. More than being just an unusual experience, this is also our most consistently effective massage. Our Asifumi therapists have practiced with their feet and hands for many years, and work deeply, deftly and dreamily to the very core of your body with no pain in sight. Word of Asifumi magic is spreading across Niseko like blossom in the spring.
- Shiatsu 指圧 The Classic. This sublime and exacting style has been practiced in Japan for over a thousand years. The Japanese hold the effects in such high regard that therapists must train for years before they are allowed to work. We offer only masters of the art to give you the exceedingly refined experience Shiatsu was meant to be.
